## Greetings from Parkview Christian School!

On June 5<sup>th</sup>, the City of Eufaula "City Council" will recognize the achievement of *Parkview Christian School* in its winning the *Cursive Is Cool* handwriting contest in both the 1<sup>st</sup> and 2<sup>nd</sup> grades. Our children competed against schools from across the nation, and of the twelve awards given nationally, our children won eight of them, even winning three of the four 1st Place awards. Each of the eight children and their teachers has been invited to attend this city council meeting so that they might be recognized individually.

Being so honored is certainly a blessing from above, and to me, it's obvious that God wants to do a great work through this school. We have terrific teachers and a wonderful staff whose hearts yearn for ministry, and thus, for seven hours each day school is in session, they pour themselves into each of their students, helping them to acquire not only biblical knowledge, but knowledge in the field of academia. When both are applied, these boys and girls are equipped with the skills they'll need to enjoy happiness and success in life. My heart's desire is that EVERY boy and girl in Eufaula be able to have this same opportunity without the prohibition of cost. I believe if God's people were to make this a matter of prayer, **and we were to ask with fervor**, somehow/someway the finances would be made available for this to happen.

And so with this in mind, let me close with the words of John Piper, former pastor of Bethlehem Baptist Church of Minneapolis: "When God aims to do a great work, the first thing He harnesses is the power of prayer. He starts by planting the spark of desire in a few hearts. Then through prayer He fans it into a flame. Then the flame of desire and faith spreads to others. Soon large numbers are on their knees imploring the great work. Then God acts. Then He pours down His blessing. God loves to do great works of redemption. But even more He loves to do it in answer to prayer."

Grateful to serve,
